COMPREHENSIVE IT SOLUTIONS & MANAGED SERVICES

EXECUTIVE SUMMARY

Oceanaura Infotech is Rajkot's dedicated IT solutions and managed services provider, specializing in creating and maintaining rock-solid IT infrastructure for the corporate, industrial, and education sectors.

We don't just fix issues; we establish a proactive partnership through robust Annual Maintenance Contracts (AMC) and security protocols, ensuring your operations are continuously secure, optimized, and free from unexpected downtime. We are committed to translating complex IT challenges into simple, cost-effective, and reliable business continuity.

Core Focus

Delivering premium B2B Managed Services, Proactive AMC, rigorous Data Security, and comprehensive Infrastructure Lifecycle Management for modern enterprises.

Our Mission

To be the most trusted technology partner in the region, ensuring every client's digital ecosystem is highly reliable, uncompromisingly secure, and thoroughly future-ready.

Our Vision

To transform the technological landscape of regional businesses by providing seamless, zero-downtime IT environments, enabling our clients to focus entirely on their core growth and success.

STRATEGIC SOLUTIONS PORTFOLIO

Our services are delivered under five strategic pillars designed to provide single-point accountability for all corporate IT requirements.

1. Managed Corporate Support (AMC)

Our flagship AMC services deliver peace of mind through preventative care and guaranteed rapid response.

- » **Proactive Monitoring:** Scheduled health checks, system updates, and preventative maintenance to halt issues before they affect workflow.
- » **Priority Support:** Guaranteed quick, decisive onsite and remote support with defined Service Level Agreements (SLAs).
- » **IT Asset Management:** Comprehensive tracking, reporting, and optimization of all your corporate hardware and software assets.

2. Infrastructure & Networking

Building the secure and scalable backbone your business relies on.

- » **Server & Networking:** Expert design, installation, and continuous maintenance of robust, high-performance network infrastructure.
- » **Wi-Fi Solutions:** Deployment of seamless, high-speed wireless networks tailored for corporate offices and educational campuses.
- » **Structured Cabling:** Neat, organized, and standardized network cabling to ensure maximum data transfer speeds and reliability.

3. Hardware Lifecycle & Repair

Managing the procurement, repair, and optimal performance of all your end-user devices.

- » **Desktop & Laptop Services:** Supply of genuine, high-performance IT products and expert service/repair for all corporate devices.
- » **Printer Hub:** Comprehensive printer sales, service, and repair (including toner refilling and driver management).
- » **Upgrades & Accessories:** Strategic hardware upgrades and provisioning of quality IT accessories to boost team productivity.

4. Security & Surveillance

Comprehensive protection for your digital perimeter and physical premises.

- » **Antivirus & Patches:** Deploying and managing enterprise-grade security software (e.g., ESET, Quick Heal, Fortinet) to protect systems from malware.
- » **CCTV Surveillance:** Professional installation and maintenance of reliable, high-definition surveillance systems for site security.

5. Data Recovery & Backup

Ensuring your most critical business assets are never lost.

- » **Automated Backups:** Implementation of secure NAS and cloud backup solutions to safeguard critical business data continuously.
- » **Data Recovery Experts:** Professional retrieval of lost, corrupted, or deleted data from crashed hard drives, SSDs, and pen drives.

WHY PARTNER WITH OCEANAURA?

End-to-End Expertise

Single, reliable partner for all your IT requirements, from hardware sales to complex server maintenance and AMC.

Local Reliability & Speed

Quick, decisive onsite and remote support rooted in expert local knowledge in the Rajkot region, ensuring minimal downtime.

Focus on Prevention

Our AMC model shifts the focus from costly reaction to proactive prevention, protecting your bottom line continuously.

Transparency & SLAs

Clear service level agreements (SLAs) and detailed reporting on all maintenance activities and support tickets.
